WHY CONNECT WITH ME?

Proven Multi-Client Governance & Scalable Support Engines

With 6+ years of specialized experience optimizing performance infrastructure across high-demand sectors like travel, aviation, and digital marketplaces, I translate operational complexity into pure margin protection.

Business Optimization: As an operational partner managing cross-functional programs on platforms like Freelancer.com, I actively guide multi-client voice and non-voice operations. My implementations consistently sustain a Service Level above 95.5% using predictive real-time monitoring (RTA), keep First Call Resolution (FCR) > 85%, and lower Average Handling Time (AHT) by 15% through strict workflows, deep-dive root cause analysis (RCA), and AI automation toolkits.

The 10X GenAI Productivity Edge: I specialize in integrating modern Generative AI frameworks into legacy corporate architectures. By automating manual reporting flows, systemizing AI-enabled ticketing networks, and leveraging Microsoft 365 Copilot, I help organizations unlock a 10X boost in team productivity, effectively reducing operational overhead while scaling output capacity exponentially.

CONSULTING & PROFESSIONAL SERVICES

1. Operations & Management Consulting (\$40.00 / hr)

Eliminating systemic operational bottlenecks and stabilizing multi-client workflows.

- **Project Leadership:** Resource scheduling, real-time monitoring (RTA), and end-to-end framework deployment.
- **Process Auditing:** Diagnosing structural leakage, crafting target SOPs, and establishing clear compliance safeguards.
- **Customer Support Infrastructure:** Setting up scalable ticketing layers, escalation frameworks, and maximizing multi-channel response rates.

2. Data Reporting & Analytics (\$40.00 / hr)

Converting fragmented raw datasets into crystal-clear automated performance intelligence.

- **Custom MIS Dashboards:** Building intuitive trackers for clear real-time transparency across core organizational health metrics.
- **Governance Reporting:** Generating automated performance structures ready for corporate leadership and stakeholder reviews.
- **Metric Infrastructure:** Establishing automated methods to audit SLA, AHT, FCR, QA, and operational shrinkage patterns.

3. Career Guidance & Job Strategy (\$45.00 / hr)

Navigating competitive landscapes using modern platform architecture and targeted roadmaps.

- **Strategic Skill Mapping:** Dissecting your professional history to align with high-value marketplace demands.
- **High-Yield Application Systems:** Bypassing traditional digital black holes by exploiting platform networking and LinkedIn.
- **Profile Structuring:** Rewriting profiles to prominently spotlight high-level execution, ownership, and metric delivery.

4. Custom Interview Prep & Coaching (\$45.00 / hr)

Equipping you with structured confidence to turn incoming interviews into concrete contract wins.

- **Targeted Question Banks:** Carefully curated behavioral, leadership, and situational question pools matching exact job definitions.
- **Structured Framework Answers:** Training you to master the STAR method to elegantly demonstrate metrics and business value.
- **Live Simulation Sessions:** High-fidelity mock runs to smooth out pacing, build confidence, and ensure expert executive presentation.
